International Journal of Fracture

CONTENTS OF VOLUME 91 (1998)

Vol. 91, No. 1, 1998

Distributions of stress and plastic strain in notched tensile bars	S.E. ALEXANDROV and R.V. GOLDSTEIN	1–11
Investigation of the scattering of harmonic elastic antiplane shear waves by a finite crack using the non-local theory	ZHENGONG ZHOU, BIAO WANG and SHANYI DU	13–22
A stochastic theory for the problem of multiple surface crack coalescence	BERNARD FEDELICH	23–45
Asymptotic analysis for a crack on interface of damaged materials	YONG-LI WU, ZHI-FA DONG and GUO-CHEN LI	47–60
Investigation of macrocrack-microcrack interaction problems in anisotropic elastic solids – Part I: General solution to the problem and application of the J-integral	YI-HENG CHEN and HONG ZUO	61–82
Fracture characteristics of SiC particle reinforced oxynitride glass using chevron-notch three-point bend specimens	T. ROUXEL and Y. LAURENT	83–101

Vol. 91, No. 2, 1998

Transverse cracking and delamination in cross-ply gr/ep composites under dry, saturated and immersed fatigue	ALEX S. SELVARATHINAM and Y. JACK WEITSMAN	103–116
Numerical investigation on stable crack growth in plane stress	CHENG YAN and YIU-WING MAI	117–130
Edge dislocations near a cracked sliding interface	BI-TRONG CHEN, C.T. HU and SANBOH LEE	131–147
Comparison of elastic interaction of a dislocation and a crack for four bonding conditions of the crack plane	BI-TRONG CHEN, C.T. HU and SANBOH LEE	149–164
Reduction of free-edge stress intensities in anisotropic bimaterials	J.R. BERGER, P.A. MARTIN and J.P. LIEN	165–177
Calculation of elastic T-stresses near interface crack tip under in-plane and anti-plane loading	H.J. MOON and Y.Y. EARMME	179–195

A Griffith crack moving along the interface of two dissimilar piezoelectric materials	ZENG-TAO CHEN, B.L. KARIHALOO and SHOU-WEN YU	197–203

Vol. 91, No. 3, 1998

Elastic plastic mode III crack under internal shear	J.A. HURTADO	205–216
Thermal loading of a thin layer with circular debonding over a substrate	H. BALKAN and E. MADENCI	217–231
Experimental investigation of near crack tip creep deformation in alloy 800 at 650°C	JIN LIU, MICHAEL SUTTON, JED LYONS and XIAOMIN DENG	233–268
Elastic stress distributions in finite size plates with edge notches	P. LAZZARIN, R. TOVO and S. FILLIPPI	269–282
Determination of T-stress from finite element analysis for mode I and mixed mode I/II loading	M.R. AYATOLLAHI, M.J. PAVIER and D.J. SMITH	283–298

Vol. 91, No. 4, 1998

Dynamic analysis of instrumented CHARPY impact tests using specimen deflection measurement and mass-spring models	T. LORRIOT, E. MARTIN, J.M. QUENISSET and J.P. REBIÈRE	299–309
Experimental analysis of vibration characteristics of an edge-cracked composite plate by ESPI method	WEI-CHUNG WANG and CHI-HUNG HWANG	311–321
Numerical analysis of ductile failure of undermatched interleaf in tension	GUOYU LIN, YUN-JAE KIM, ALFRED CORNEC and KARL-HEINZ SCHWALBE	323–347
Effects of weld strength undermatch on fracture toughness of HAZ notched weldments in a HSLA steel	YAOWU SHI, ZHUNXIANG HAN and JIANQIN FU	349–358
Effective moduli for thermopiezoelectric materials with microcracks	QING-HUA QIN, YIU-WING MAI and SHOU-WEN YU	359–371
Numerical simulations of a dynamically propagating crack with a nonlinear cohesive zone	FRANCESCO COSTANZO and JAY R. WALTON	373–389
Dynamic antiplane behaviour of interacting cracks in a piezoelectric medium	S.A. MEGUID and X.D. WANG	391–403
Author index		405
Contents of volume		407–408

International Journal of Fracture

CONTENTS OF VOLUME 91 (1998)

Vol. 91, No. 1, 1998

A new photoelastic approach to determine stress intensity factors	LI XIAN-FANG and FAN TIAN-YOU	L3–L8
Optimization of layered shields with a given areal density	G. BEN-DOR, A. DUBLINSKY and T. ELPERIN	L9–L14

Vol. 91, No. 2, 1998

Local stress field for torsion of a penny-shaped crack in a functionally graded material	CHUNYU LI and ZHENZHU ZOU	L17–L22
Crack detection using spatial measurements and wavelet analysis	XIAOMIN DENG and QUAN WANG	L23–L28

Vol. 91, No. 3, 1998

On the point-wise J-value of axisymmetric plane cracks	KJELL ERIKSSON	L31–L36
A note on frictional release in microcracks	T.W. WRIGHT	L37–L42

Vol. 91, No. 4, 1998

Three-dimensional analysis of closure in fatigue crack growth	TIANCHONG CHANG and WANLIN GUO	L45–L50
A fracture mechanics study of human bone by birefringent coatings and caustics	D.D. RAFTOPOULOS, J. MEISSNER, M. KONSTA-GDOUTOS and E.E. GDOUTOS	L51–L54
Volume contents / Author index		L55–L56
